## Tested Storage Product (TSP) Description

The Fujitsu ETERNUS DX8700 S2 is a flexible, highly reliable storage array, equipped with redundant components to provide uncompromised availability to the enterprise market requirements. A mixture of 300GB, 450GB, 600GB, & 900GB/10krpm, 300GB/15krpm, & 1TB/7.2krpm 2.5" SAS drives, plus 100GB, 200GB, 400GB 2.5" SSD drives are supported. In addition 300GB, 450GB, & 600GB/15krpm 3.5" SAS drives, as well as 1TB, 2TB, & 3TB 7.2krpm 3.5" Nearline SAS drives may be installed. Up to 3072 x 2.5" drives may be included, or up to 1546 x 3.5" drives. Both sized drives can be included in the same storage array. The drives may be arranged in a variety of RAID groups, including RAID1, RAID1+0(10), RAID5, RAID6, and RAID5+0(50). The product is offered with Fibre Channel (4 port as tested or 2 port 2/4/8Gbps versions), iSCSI (1Gbps & 10Gbps 2 port), and FCoE (10Gbps 2 port) host connection Channel Adapters. Up to four Channel Adapters can be attached to each of up to eight Controllers, with multiple types available. In addition, a number of different snapshot and replication facilities, native disk data encryption, and MAID capabilities are available.

## SPC-2 Reported Data

SPC-2 Reported Data consists of three groups of information:

- The following SPC-2 Primary Metrics, which characterize the overall benchmark result:
  - SPC-2 MBPS™
  - SPC-2 Price Performance
  - Application Storage Unit (ASU) Capacity
- Supplemental data to the SPC-2 Primary Metrics.
  - Total Price
  - Data Protection Level
- Reported Data for each SPC Test: Large File Processing (LFP), Large Database Query (LDQ), and Video on Demand Delivery (VOD) Test.

**SPC-2 MBPS™** represents the aggregate data rate, in megabytes per second, of all three SPC-2 workloads: Large File Processing (LFP), Large Database Query (LDQ), and Video on Demand (VOD).

**SPC-2 Price-Performance™** is the ratio of **Total Price** to **SPC-2 MBPS™**.

**ASU (Application Storage Unit) Capacity** represents the total storage capacity available to be read and written in the course of executing the SPC-2 benchmark.

**Total Price** includes the cost of the Priced Storage Configuration plus three years of hardware maintenance and software support as detailed on page 17 of the Full Disclosure Report.

**Data Protection Level of Protected 2** using *mirroring*, which configures two or more identical copies of user data.

**Protected 2:** *The single point of failure of any component in the configuration will not result in permanent loss of access to or integrity of the SPC-2 Data Repository.*

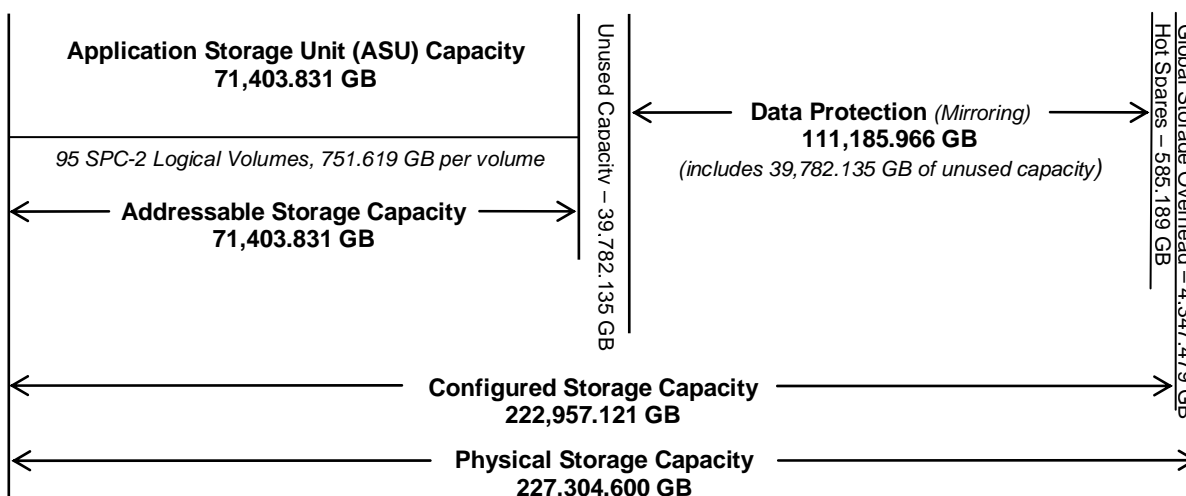

**Currency Used** is formal name for the currency used in calculating the **Total Price** and **SPC-2 Price-Performance™**. That currency may be the local currency of the **Target Country** or the currency of a difference country (*non-local currency*).

The **Target Country** is the country in which the Priced Storage Configuration is available for sale and in which the required hardware maintenance and software support is provided either directly from the Test Sponsor or indirectly via a third-party supplier.

## Storage Capacities and Relationships

The following diagram (*not to scale*) and table document the various storage capacities, used in this benchmark, and their relationships, as well as the storage utilization values required to be reported.

SPC-1 Storage Capacity Utilization	
Application Utilization	31.41%
Protected Application Utilization	62.83%
Unused Storage Ratio	35.00%

**Application Utilization:** Total ASU Capacity (71,403.831 GB) divided by Physical Storage Capacity (227,304.600 GB)

**Protected Application Utilization:** Total ASU Capacity (71,403.831 GB) plus total Data Protection Capacity (111,185.966 GB) minus unused Data Protection Capacity (39,782.135 GB) divided by Physical Storage Capacity (227,304.600 GB).

**Unused Storage Ratio:** Total Unused Capacity (79,564.269 GB) divided by Physical Storage Capacity (227,304.600 GB) and may not exceed 45%.

Detailed information for the various storage capacities and utilizations is available on pages 25-26 in the Full Disclosure Report.
